Economic effects of the creative and cultural industries

Prior to the pandemic, the creative and cultural industries generated $1.4 billion in economic activity, employed over 17,600 people, and supplied more than $768 million in wages and income in the Akron Metropolitan Statistical Area. As an industry, between 2019 and 2020, the economic output of our creative industries (that is our for-profit and not for profit) declined by over 8% in Summit County. For much of 2020 and 2021, we had the dubious distinction of being the sector with the highest unemployment rate in the state, soon joined by the hospitality industry. Our business model was decimated and doors shut across galleries, museums, historic homes and sites, music venues, schools, and performance venues in an effort to ensure the safety of the community we love and serve.

In Summit County, a healthy and fully leveraged arts and cultural sector will attract and retain talent to our region, build jobs in the creative sector, add significant value to the education of our community's children, and serve as a leading indicator of economic prosperity and impact.

Your voice is vital in our ongoing work to ensure that our community leaders and elected officials understand their vital role in supporting arts and culture in all of our Summit County communities.

What direction are we taking?

Support a minimum of $211 million each for FY24 Funding for the NEA and NEH

Thanks to arts advocates across the country, the National Endowment for the Arts and National Endowment for the Humanities each received an all-time high of $207 million for the current 2023 fiscal year. Now marks the beginning of the FY2024 appropriations process. The President has requested a budget increase for both the NEA and NEH to $211 million each for FY24. Now is the time to urge Congress to at least match the President's request by appropriating this increased funding for the NEA and NEH. Please urge your Members of Congress to support a budget of at least $211 million each for the NEA and NEH.
